blends

burnishing

- Layering is the first thing to learn about using colored pencils!

one layer

layer lightly,
evenly...

two layers

try for
even coat

4 layers

and smooth

- BLENDING is next!

- 1st yell layer
lightly

- green layer
lightly

- yell layer
med. pressure
around bottom

- green layer top

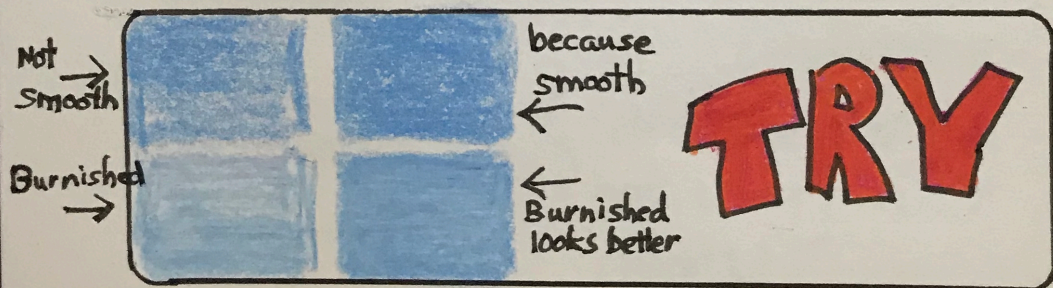

} same for these
but using other
colors!

- Burnishing is like polishing... it smoothes and intensifies colors.

- Burnishing with white will brighten & lighten colors.
- Simply use your main color to burnish, pressing heavily
- When laying on a darker color, use a darker color to burnish.

- Experiment! That's how you discover things!

- ★ you need a smooth layer of color before you burnish... you also need enough color

BLACK

Tints And Shades

To tint, you add WHITE

To shade, you add BLACK

- Tint or Shade lightly over colors; sometimes repeatedly...
