

Knitting 4-8: Simple Baby Yoda Part 3

*If you would like a materials bundle or any supplies please contact your ST and I will make sure your supplies are ready on the next pick up day.

Lesson 3: Assemble!

Basically, you will be sewing a cylinder, stuffing it and drawing the bottom and top closed.

- 1) Turn your work wrong side out and sew the sides together. When you turn the work right side out your seam should be hidden on the inside. The seam will be at the back.
- 2) With the work inside out, sew along the bottom and create a drawstring to pull the bottom closed.
- 3) Turn your work right side out and stuff with wool.
- 4) Sew the head closed.
- 5) Sew the ears onto the head at each side so that they stick straight out to the side.
- 6) Add black buttons for the eyes.
- 7) Using green yarn, sew on any other features such as nose and eyebrows.

- 8) Take a photo and send it to me! arianaward@gmail.com

***Please remember that this is a beginner's pattern. If you like the pattern you may want to make a few Baby Yodas and experiment with changing the size and color. Some of you may be ready for a more advanced Baby Yoda:
