

# **A Day in the Life of Me!**

With everyone home this semester I thought it would be fun to do a project that featured YOU. This film should be a behind the scenes look at your life! What does your day look like? How has it been being home everyday? What is your favorite part of the day? Your least favorite? What do you eat for lunch? This project can be done in the style of a vlog (a vlog is you talking to the camera, sharing your experience) or as a movie about you. Another idea would be to make a video of short clips, set to music with no talking. Whatever you choose- be creative.
