

Photography, 3-8, Looking UP, Mrs. Kelley

For this activity, you're going to look up for creative pictures. ***NEVER LOOK AT THE SUN***

You could put your camera right up against a tree trunk and take a picture looking up into the tree. Lay on the floor near a book case, or a wall, and take pictures looking up from there. Hold your camera lower than a flower, a pet or person and take a picture looking up towards them. If you celebrate Christmas, you could do this with your Christmas tree. You can also take pictures of the sky or clouds, or looking up the side of a building.

Here are some examples:
