

The Proportion of the Human Form

- Pencil
- Eraser
- Ruler
- Sharpie
- Colored Pencils

measure
a 7" line
in your
sketchbook
and find
the center!

(in pencil
lightly)

Divide your
line into quarters
(see measurements)

(Use pencil)
lightly

Please
do your
best to
remember
that around
the hips,
is halfway

Names of Body Parts

Practice drawing the human form over & over, until you've memorized the placement of the basic structure... from then on, you can make your own style changes and next, you can begin changing the posture ~ try sitting; walking or running!
